

## GLOBAL QUALITY POLICY STATEMENT

TP Aerospace is committed to providing worldwide support of wheels and brakes through flexible tailor-made solutions of the highest Quality.

It is our responsibility as a leader in the wheel and brake aftermarket, to ensure safety by providing Quality Products and Services. We pride ourselves in how our commitment to Quality is embedded in our company culture: A culture that empowers employees at all levels of the organization to proactively get involved in the improvement of our Quality Management System. We are committed to continuously strengthening our Quality Culture through innovative quality initiatives.

Our High standards of Quality are achieved through continuous process improvement, compliance to applicable Regulatory Authorities, AS9120 Rev. B and customer requirements and the dedication of our employees. Our passion for what we do allows to maintain continued strong relations with our customers offering uncompromising Quality, and we entrust our business partners to provide the same level of engagement.

Located strategically with ready-to-go inventory, close customer relations allow us to meet and exceed their expectations anytime, anywhere. It's that Simple!
